INDUSTRIAL VACUUM CLEANERS

1880DC INDUSTRIAL VACUUM CLEANER

A compact battery-powered industrial vacuum cleaner with a single 80 L stainless steel tank: 1,800 W, 18 kPa vacuum and 468 m³/h air flow. It runs on a 24 V, 100 Ah lithium battery, and at 69 dB(A) and 650 × 600 × 1,280 mm it suits daytime cleaning in warehouses, shops and public buildings.

Voltage (V)	**24, battery**
Battery	**100 Ah lithium**
Power (W)	**1,800**
Vacuum (kPa)	**18**
Air flow (m³/h)	**468**
Collection bin (L)	**80**
Inlet diameter (mm)	**40**
Hose length (m)	**3**
Noise level (dB(A))	**69**
Filtration accuracy (µm)	**0.3**
Weight (kg)	**80**
Dimensions L×W×H (mm)	**650 × 600 × 1,280**

KEY FEATURES

1,800 W motor head
Runs on a 24 V, 100 Ah lithium battery.

80 L stainless steel tank
For dust and general debris.

40 mm inlet and hose
The suction hose connects to a 40 mm side inlet.

Front floor tool
Picks up debris as the unit is pushed along.

Swivel casters
Swivel casters under a steel base frame.

Push handle
For moving the 80 kg unit between work areas.
