ENCLOSED-CAB SWEEPERS

GS240 ENCLOSED-CAB SWEEPER

A large fully enclosed electric sweeper with a 1,500–2,450 mm sweeping path, rated at up to 24,000 m²/h. It combines dual suction, front spray, a roof fog cannon and a high-pressure water gun with a 300 L water tank and a rear-mounted 240 L wheeled bin, for municipal roads, squares and industrial parks.

Sweeping width (mm)	**1,500–2,450**
Productivity (m²/h)	**24,000**
Debris hopper (L)	**240**
Water tank (L)	**300**
Run time (h)	**5–8**
Drive motor (W)	**3,000**
Weight (kg)	**1,265**
Dimensions L×W×H (mm)	**3,500 × 2,500 × 2,550**

KEY FEATURES

Fully enclosed cab
Keeps dust, sun and rain away from the operator.

Roof fog cannon
Sprays fine mist to settle dust while sweeping.

Warning light bar
An amber light bar on the cab roof for visibility in traffic.

Side brushes
Side brushes sweep a path of 1,500–2,450 mm.

Front spray
Water spray at the front keeps dust down ahead of the brushes.

Rear-mounted 240 L bin
Debris goes into a standard 240 L wheeled bin carried at the rear.
